Gingham

Gingham is inspired by my new veggie garden and desire for chickens.

I have recently started my own little veggie patch and mini fruit orchid in my urban back yard. I am a city girl but love the idea of self sufficient country life. I desperately desire chickens but my “oh so very practical hubby” disagrees with my romantic ideas.

This range may or may not have been my devious plan to obtain chickens in the name of Raine & Humble and the catalogue photoshoot.

It didn't work!

So now I have to be satisfied with my textile chickens, simple checks and speckled spots to add a little urban country chic to my kitchen and living space.
